

“One of the biggest challenges that Adobe Spark helps us address is finding ways to engage students of all ages, levels, and learning styles, even within the same classroom.”

Suzanne Peerenboom, Library and Instructional Technology Teacher, Five Oaks Middle School, Beaverton, Oregon School District

Engage your students and drive creativity in the classroom for FREE with Adobe Spark for Education.

Adobe Spark is the simple yet powerful creativity and storytelling tool available for free to schools and institutions. It empowers students of all grades to create high-quality, visually compelling graphics, presentations, and short videos.

Key features for students:

- **All-in-one storytelling app:** Stand out by creating stunning research papers, writing assignments, graphics, posters, videos, narrated stories, presentations, reports, and so much more.
- **Fast, fun creation:** Spark is easy for everyone to use, whether they're children or adults, and requires no design training.
- **In the classroom and on the go:** Students can use Spark on a computer, Chromebook, or mobile device. All projects sync to the cloud for easy access.
- **Classroom collaboration:** Students can now invite others to work with them on projects and easily tag-team to make edits.
- **Built-in inspiration:** Spark includes thousands of templates to use as starting points for assignments or as personal inspiration.

Key features for teachers:

- **Easy-to-follow lesson plans:** Ignite creativity in your classroom and meet curricular objectives with our free step-by-step teaching resources at <https://edex.adobe.com/spark>
- **Student engagement:** Kids have so much fun using Spark they won't realize how much they're learning!
- **Streamlined communications:** Easily create parent newsletters, event announcements, classroom posters, Twitter/social media graphics, classroom update videos, and more.
- **Works with the tools you use most:** Adobe Spark has integrations with district portals (Clever and ClassLink), edtech tools (Google Drive, Microsoft OneNote, Flipgrid, and Wakelet), and learning managements systems (Google Classroom, Microsoft Teams, Canvas, and Blackboard) so you can access Spark seamlessly as part of your daily workflow. Talk to your IT administrator to enable these integrations.

Key features for IT:

- **For all ages:** Spark can be used in accordance with COPPA and similar EU laws, with parent consent.
- **Works with existing logins:** Students and teachers use existing logins, so there are no additional accounts to manage or passwords to forget.
- **Control:** Your school or college's IT team manages and controls Spark access and data.
- **Free for schools:** Spark usually costs US\$9.99/month/user, but Spark for Education is free for schools and institutions.
